EDUCATION

Master of Computer Application (MCA) 2023 – 2025
Pranveer Singh Institute of Technology (PSIT), Kanpur

Bachelor of Science (B.Sc) 2019 – 2021
Chhatrapati Shahu Ji Maharaj University, Kanpur

CORE COMPETENCIES

- **Programming Languages:** Java
- **Core Java:** OOPs, Exception Handling, Multithreading, Collections, File Handling
- **Data Structures & Algorithms:**
- **Computer Science Subjects:** Operating System, Computer Networks, Software Engineering

PROFESSIONAL EXPERIENCE

Java Instructor / Computer Science Trainer *Kanpur, India*
Independent / Institute-Based Teaching Experience *2025 – Present*

- Delivered structured training in **Core Java** including OOP concepts, exception handling, multithreading, collections, and JVM internals.
- Strong understanding and teaching experience in **Data Structures and Algorithms**, covering arrays, linked lists, stacks, queues, trees, sorting, and searching techniques.
- Explained **Operating System concepts** such as process management, threads, scheduling algorithms, deadlocks, memory management, and virtual memory with real-world examples.
- Taught foundational **Computer Engineering concepts** including system architecture, memory hierarchy, and basic compiler concepts.
- Provided conceptual clarity in **Computer Networks**, including OSI and TCP/IP models, routing, switching, and networking protocols.
- Guided students through hands-on problem-solving, coding practice, and interview-oriented questions.
- Assisted learners in building logical thinking and debugging skills essential for software development roles.

ACADEMIC PROJECT

CODDY – Realtime Code Editor

- Developed a real-time collaborative code editor using **Node.js and React**.
- Implemented live code synchronization and multi-user collaboration features.
- Gained practical exposure to backend logic, networking concepts, and real-time systems.

TEACHING STRENGTHS

- Strong ability to explain complex topics in a simple and structured manner.
- Hands-on approach with code examples and problem-solving sessions.
- Experience teaching **Java, DSA, OS, and Computer Networks fundamentals**.
- Focus on conceptual clarity and interview-oriented preparation.

CERTIFICATIONS

- HTML5 – Infosys Springboard
- Programming Fundamentals using Python – Infosys Springboard
- Object Oriented Programming – Infosys Springboard
- Introduction to Data Science – Infosys Springboard
- JavaScript Projects – Great Learning

SOFT SKILLS

- Effective Communication
- Classroom & Time Management
- Problem Solving
- Critical Thinking
- Student-Centric Teaching Approach
