- Hindi

PROFILE

Aspiring MERN Stack developer proficient in building scalable web applications using MongoDB, Express.js, and Node.js. contribute my skills within a collaborative team environment.

PROJECTS

- **SPOTIFY Music Player Clone (Front-end based project)** July 2025
  - Developed a responsive Spotify music player clone using HTML, CSS, and JavaScript.
  - Utilized CSS for styling a user-friendly interface and JavaScript for handling interactive elements and audio manipulation.
  - This project showcases proficiency in creating an interactive web application and managing multimedia content.
- **Currency converter (Front-end based project)** August 2025
  - Developed a dynamic, single-page web application to convert currencies in real-time using HTML, CSS, and JavaScript.
  - Integrated a third-party API to fetch and display the latest currency exchange rates.
  - Utilized the Fetch API to make an asynchronous request, effectively handling and parsing JSON data from the external services.

EXPERIENCE

Full Stack Web development (MERN) March- Present

- Developed and deployed a full-stack web application using the MERN stack.
- Demonstrating expertise in React for the front-end, Node.js, and Express.js for RESTful API's, and MongoDB for storage.
- Used Git for collaborative development and code management.

CERTIFICATIONS

- MERN Stack developer certified from Apna college.
- **Technologies learn :**
- MongoDB
- Express.js
- React
- Node.js
