LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience at HSBC delivering financial analytics, management reporting, and data-driven insights for senior stakeholders. Pursuing M.Tech in Machine Learning at IIIT Allahabad, with a B.Tech in Engineering. Skilled in Python, SQL, Power BI, and Advanced Excel, with a strong foundation in machine learning, deep learning, and computer vision. Proven ability to translate business problems into analytical solutions, automate reporting pipelines, and communicate actionable insights to leadership.

CORE SKILLS

Programming & Querying: Python, SQL, C++, pandas, NumPy, Matplotlib

BI & Visualization: Power BI, Microsoft Excel (Pivot Tables, Power Query, VLOOKUP, Macros/VBA), Tableau, Jupyter Notebook

Data & Financial Analytics: Exploratory Data Analysis (EDA), Variance & Trend Analysis, Forecasting, KPI Definition, ETL Pipelines, Data Modelling, Financial Metrics (Revenue, NII, NFI, ECL, Balance Sheet), Portfolio Analytics

Machine Learning & AI: TensorFlow, PyTorch, scikit-learn, OpenCV, Deep Learning, Computer Vision, Model Evaluation, Feature Engineering, Neural Networks

Business Analysis: Requirements Gathering, Stakeholder Management, Process Improvement, Gap Analysis, Root Cause Analysis, Management Reporting, Presentation Skills

Soft Skills: Stakeholder Communication, Cross-functional Collaboration, Problem-solving, Strategic Decision Making, Attention to Detail, Adaptability

PROFESSIONAL EXPERIENCE

Data Analyst Intern — HSBC Global Service Centre
February 2026 – Present | India

- Partnered with senior business stakeholders to gather reporting requirements, define KPIs, and deliver daily, weekly, and monthly management reports on financial metrics including Revenue, NII, NFI, ECL, Cost, and Balance Sheet movements.
- Performed variance, trend, and deep-dive analysis on large-scale banking datasets to identify business drivers and support strategic decision-making for leadership.
- Automated monthly reporting workflows using Python (pandas, openpyxl), Advanced Excel (Pivot Tables, Power Query), and Power BI — building reusable, parameterized pipelines that reduced manual effort, improved data accuracy, and accelerated turnaround.
- Prepared management review presentations highlighting YoY and QoQ performance drivers, business outlook, and actionable recommendations for cross-functional stakeholders.

Teaching Assistant — Indian Institute of Information Technology, Allahabad
August 2024 – Present | Prayagraj, India

- Supported faculty across Database Management Systems (DBMS), Image & Video Processing, and Computer Vision courses; mentored undergraduate students on SQL query writing, analytical concepts, and problem-solving.

PROJECTS

Visual Anomaly Detection in the Compressed Domain — Python, PyTorch, OpenCV, Convolutional Autoencoder

- Designed an encoder–decoder model to detect anomalies in video data directly on compressed-domain features (DCT coefficients, motion vectors), evaluated with AUC-ROC and MSE on UCSD Ped1/Ped2 and CUHK Avenue benchmarks — transferable to fraud detection and risk analytics.

Data-Driven Heartbeat Classification — Python, scikit-learn, pandas

- Built a classification system on MIT-BIH and Kaggle datasets using Support Vector Machines (SVM) and Artificial Neural Networks (ANN) with feature engineering; owned the full pipeline from data preprocessing to interpretable output.

EDUCATION

M.Tech, Information Technology (Machine Learning) — Indian Institute of Information Technology, Allahabad
2024 – Present | Prayagraj, India

Bachelor of Technology (B.Tech) — UIET, CSJM University, Kanpur
2019 – 2023 | Kanpur, India

ACHIEVEMENTS & ADDITIONAL

- **Languages:** Hindi (Native), English (Professional). **Activities:** Coding contests including Job-a-Thon and Coding Ninjas Weekend Challenges (2023–present).
