DIVY GUPTA

Assistant Professor / Faculty – Computer Science & Engineering (AI & ML)

Kanpur, Uttar Pradesh | +91-8172874764 | divygupta001@gmail.com | linkedin.com/in/divy-g-1506bb258 | github.com/DIVY-GUPTA

CAREER OBJECTIVE

Engineering graduate in Artificial Intelligence & Machine Learning with a strong foundation in Core Computer Science subjects, including Data Structures & Algorithms, Operating Systems, DBMS, and Computer Networks. Passionate about teaching, mentoring students, and simplifying complex technical concepts through academic and laboratory guidance. Seeking an Assistant Professor / Faculty position in Computer Science & Engineering (AI & ML) to contribute to curriculum delivery, laboratory instruction, and student development at an AKTU-affiliated engineering institution.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL
Core Computer Science Subjects: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Database Management Systems (DBMS), Operating Systems, Computer Networks
Artificial Intelligence & Machine Learning: Computer Vision, Convolutional Neural Networks (CNN), YOLOv5 Object Detection
Web Technologies: HTML5, CSS3, JavaScript, Responsive Web Design
Frameworks & Development Tools: Git, GitHub, VS Code
Database: MySQL
Academic & Teaching Skills: Technical Concept Explanation, Laboratory Demonstration, Project Guidance, Problem-Solving Instruction, Curriculum-Aligned Learning
Soft Skills: Communication, Mentoring, Team Collaboration, Analytical Thinking, Adaptability

ACADEMIC & RESEARCH PROJECTS

Object Detection & Analytics Web Application

- **Objective**: Designed a real-time object detection system to demonstrate practical application of computer vision concepts for academic and laboratory use.
- **Technologies**: YOLOv5, Flask, HTML5, CSS3, JavaScript, Git/GitHub.
- **Implementation**: Integrated a YOLOv5 computer vision model with a Flask backend and built a responsive frontend interface for image submission and diagnostic result rendering; optimized inference pipelines to reduce processing overhead.
- **Learning Outcome & Impact:** Strengthened understanding of model-deployment workflows, client-server communication, and applied computer vision, providing a demonstrable case study for explaining end-to-end AI application design to undergraduate students.

Plant Leaf Disease Diagnostic Platform

- **Objective**: Developed a deep learning-based image classification system to automate detection of crop leaf anomalies, illustrating a real-world application of AI in agriculture.
- **Technologies**: Convolutional Neural Networks (CNN), FastAPI, Streamlit.
- **Implementation**: Built RESTful APIs using FastAPI to handle image payloads and asynchronous predictions, and deployed an interactive Streamlit dashboard for real-time uploads and visualization of classification results.
- **Learning Outcome & Impact**: Gained hands-on experience optimizing matrix operations and data-loading pipelines to reduce inference latency, reinforcing core deep-learning fundamentals and providing a practical teaching example connecting CNN theory with a deployable application.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University, Lucknow 2022 – 2026
Bachelor of Technology (B.Tech) – Artificial Intelligence & Machine Learning | ***CGPA: 8.15 / 10***

Intermediate / Class XII (CBSE) 2022
Score: 75.0%

High School / Class X (UP Board) 2020
Score: 78.5%

CERTIFICATIONS

- HackerRank: Problem Solving, Python, SQL Certificates
- Infosys Springboard: JavaScript, HTML, CSS Certifications

ACHIEVEMENTS

- Attained a 5-Star Problem Solving Badge on HackerRank.
- Solved 100+ Data Structures & Algorithms problems across LeetCode and GeeksforGeeks, focusing on algorithmic optimization – reflecting strong subject-matter depth for DSA instruction.

ACADEMIC & TEACHING INTERESTS

Data Structures & Algorithms • Artificial Intelligence & Machine Learning • Database Management Systems • Computer Networks & Operating Systems • Web Technologies & Software Engineering • Student Project Mentoring & Laboratory Instruction
